Uses

Serve raw as a salad or a leafy salad ingredient; steamed, braised, stir-fried or microwaved. A brightly colored, curly leafy garnish.

Storage & Preparation

Store your Salad Savoy® at 34 to 38 degrees F (1 to 3 degrees C), with humidity of at least 90 percent. This hardy vegetable will hold well for two weeks or more.

To separate the leaves, place the core end of the head firmly on a preparation table. Place your hands over the leaves and push down with a sharp, quick motion.

SOMETHING NEW!

BRIGHT LIGHTS SWISS CHARD®

Salad Savoy Corporation has started a full commercial production of Bright Lights Swiss Chard. Bright Lights is a new generation of Swiss Chard. Its stems are gold, orange, pink, red, or white in color. There are three to five colors per bunch, 12 bunches per carton. Each bunch is identified by a colorful tag which includes a quick and easy recipe and UPC code. The savoyed leaves are mostly medium to deep green, while a small percentage has darker tones of red and copper. Veins are primarily light green; secondary vein colors share the color of the stem. For example, orange, gold, or pink.

Bright Lights has the great combination of taste, color, and nutrition! The intensity of the colors is striking and is sure to be a point of conversation with your customers.

Salad Savoy Corporation Introduces

many names, many more uses!

Salad Savoy Corporation is proud to introduce one of our latest items, Tasty Tuscan™ Lacinato Kale. Also known as Dino Kale, Black Kale, Tuscan Kale or even Tuscan Cabbage, Lacinato Kale has been around for centuries. However, with our handpicked and handpacked 12 count bunch pack, Salad Savoy is “re-introducing” this item with our unsurpassed quality stamp.

With a slightly sweeter taste and more delicate texture than the general green kale, Tasty Tuscan will please the most discerning palate. Whether added to soups or sandwiches, salads, or sauteed alongside a center plate protein, there’s always a spot for Tasty Tuscan on the plate!

As with our other items, Lacinato is loaded with vitamins A & C, fiber, and minerals. Once again, the combination of color, taste and nutrition makes for another winner for a great meal. Both your retail and foodservice clientele will be happy you’re carrying this item!

Tasty Tuscan Lacinato is packed 7 per tier,
70 cartons to a pallet.

The Dynamic Duo!

In keeping with our motto of "Home of Color, Taste, and Nutrition®", Salad Savoy Corporation is proud to offer our Red Ruby Swiss Chard™ and Green Emerald Swiss Chard®. Both have the same top quality as our Bright Lights® multi-colored chard, but with just one color, for more traditional customers. Both items are packed 12 bunches per carton, each bunch tagged with a colorful bib noting relevant product information.

While chard has been around for centuries, it has recently regained mainstream attention due to its nutritious makeup.

Chard is loaded with vitamins A & C, potassium, fiber, and protein.

With a lengthy shelf life, dynamic visual appeal, wonderful taste and an enormous variety of applications, in all cuisines, Red Ruby Swiss Chard and Green Emerald Swiss Chard are sure-fire winners in every product lineup!

*Lollipops*TM

MULTI-COLORED
KALE SPROUTS

A Tasty Cross Between Red Kale and Brussels Sprouts

- Lollipops offer very diverse presentations in the kitchen.
- Use raw as a complement to mixed salads.
- A fork-size vegetable that can be sautéed, steamed or stir fried. Lightly cook with olive oil for four or five minutes, season to taste.
- A great center plate addition to a protein serving.
- Outstanding shelf life. Just keep cold (34°F) and mist occasionally to maintain freshness.
- Shipped in a petite container (.335 bushel) which minimizes cooler space. Container holds approximately 4 pounds of lollipops.
